5 U.S.C. § 552(b)(6)

CERTIFIED MAIL

Dear 5 U.S.C. § 552(b)(6);

The Food Security Act of 1985, as amended, requires any person who plants an agricultural commodity on a wetland converted after December 23, 1985, or converts a wetland after November 28, 1990 for the purpose of making production of an agricultural commodity possible, to be determined ineligible for many US Department of Agriculture (USDA) program benefits conditioned upon compliance with provisions set forth in USDA regulation 7 CFR Part 12 §12.4.

On December 18th, 2012, the Natural Resources Conservation Service (NRCS) conducted a wetland determination field investigation on 5 U.S.C. § 552(b)(6) in Monroe County, Illinois. Based on the field investigation I made a preliminary technical determination that:

- Field A shown in Section II of the attached NRCS-CPA-026E "HIGHLY ERODIBLE LAND AND WETLAND CONSERVATION DETERMINATION" form, contain wetlands and/or wetland violations with the labels/certifications as indicated.
- These areas met, or had met before conversion, wetland criteria of having soils that developed in wetlands, plants that grow in wetlands and soil and/or surface wetness.
- Your manipulation by removing woody vegetation in 2012 on this wetland area is considered a manipulation that makes the area farmable and is a violation of the wetland provisions of the Food Security Act of 1985, as amended. This violation may impact your ability to receive many USDA program benefits if an exemption is not granted.

The preliminary technical determination was provided to you on January 8th, 2013 and was based on the findings listed above. The preliminary technical determination provided you a 30 day time period to provide us with additional information upon which to make our determination. The 30 day period was reached on February 8th, 2013. There has been no response to our office on the preliminary technical determination. As required by regulation and NRCS policy, I am making the preliminary technical determination a final technical determination.

The final technical determination has been made for the purpose of implementing the wetland conservation provisions of the Food Security Act of 1985. This determination may not be valid for identifying the Army Corps of Engineers' (COE) Clean Water Act jurisdiction for this site. If you intend to conduct any activity that constitutes a discharge of dredged or fill material into wetlands or other waters, you should request a jurisdictional determination from the local office of the COE prior to starting the work.
